ABOUT OUR EARLY CHILDHOOD EDUCATION PROGRAMME

The Diploma in Early Childhood Education is a 2½ - 3 year programme. The first five years of a child's life are the most formative and highly important stage in their development. This programme provides for the teacher professionals to view the development years in a continuum. The children will be prepared to start a formal education, will have a good foundation for continued learning, a grasp of peer relationships, will have higher self-esteem, and better enjoyment of the learning process.
