

Diploma in
**EARLY CHILDHOOD
EDUCATION**

(N-DL/0112/4/0039)(09/28)(MQA/PA16846)

ABOUT OUR EARLY CHILDHOOD EDUCATION PROGRAMME

If you have a big loving heart for young children, then the Diploma in Early Childhood Education at KLMUC will be a launch pad for your career. As the first five years of a child's life are the most formative stage in their development, early childhood educators play a central role in how they learn, grow and behave. On top of the ability to teach, early childhood educators must also master the skills in caring for the social, emotional and physical needs of infants and young children. This programme, in line with the Malaysia Education Blueprint that requires preschool teachers to possess at least a Diploma in Early Childhood Education, perfectly complements your passion to nurture young children. You are just a step away from being called a "Teacher".

PROGRAMME AIM:

This all-encompassing programme provides students with the opportunity to explore early childhood education curriculum theories and pedagogies, child development and behavior management, health and well-being, effective learning through play, as well as teaching and learning in the areas of languages, literacy, mathematics, science and arts. Throughout the studies, students also get to experience learning across different early childhood settings and finally graduate equipped with the competence and aptitude to meet the exponential growth of the early childhood education industry.
